Sectigo Web Complete Plan

Automatically Manage the Complex

PCI-DSS compliance can be difficult and time consuming to accomplish without the right guidance or help provided to you and your business. Being PCI compliant not only gives peace of mind but it makes your business stronger and more secure. Trying to attempt the complicated process on your own can, in some cases, steer a business down the path of being PCI Non-Compliant. Non-compliance can lead to many different consequences such as monthly penalties, data breaches, legal action, damaged reputation, and even revenue loss. The Sectigo Web Complete Plan allows you to optimize for a worldwide audience, provide, resilience and a single point of support for the CDN, WAF, and load balancing. Facilitating PCI compliancy and resulting in a better and more secure customer experience, wherever they are located.

Proactive Protection is better than the Cure

Waiting has negative consequences...

\$5,000 per month is the avg PCI non-compliance penalty

16% decrease in customer satisfaction

2,354
average bot visits per site per week

Gain back time and save money with a completely managed security solution

7 Reasons to choose WEB COMPLETE

62 attacks per day per average website

1. DETECT

Find security risks with daily complete web scans

80% of websites run outdated version of

2. PATCH

Perform automatic regular updates of virtual patches for all CMS'

17.6M websites have malware at any

3. CLEAN

Unlimited automatic malware removal & infection remediation

2,354 average bot visits per site per week

4. BACKUP

Copy, save & restore sites automatically if anything changes

51% of cart abandonment is due

5. ACCELERATE

Global anycast CDN speeds up content delivery with built-in security

40% of all data breaches involved web

6. FIREWALL

Real-time edge protection for web apps & sites with auto rules, filtering and more

\$150 per record is the average data breach

7. COMPLY

Intuitive interface guides you through the PCI DSS compliance process

The Sectigo Web Complete plan is the only solution in the market to provide enterprise grade security for ecommerce sites at an SMB price point. Combining a complete website security stack to automate visibility, alerts, threat remediation, performance optimization, proactive protection and compliance in a single user interface allows website owners to focus on customer acquisition versus the consequences of attacks and non-compliance.

FIND. REPAIR. BACKUP.

- Daily auto scheduled scans
- Accurate scans will find hidden threats
- Automatic notifications of threats & file changes
- Automatically patch outdated themes & plugins
- Automatically remove any found malware
- Automated or scheduled backups
- One-click restore or download
- Detailed scan and repair 'post' reports
- Compatible with any website CMS

IMPROVE SPEED

- ✓ Improve speeds up to 68%
- Reduce bandwidth by 40% 70% on average
- 45 Edge Locations getting your content closer
- 65+ Total Throughput
- 2600+ Peering Partners create delivery shortcuts
- (7) 28,000+ Global ASNs

BLOCK ATTACKS

- Prevents Blacklisting
- Simplifies PCI Compliance
- Full end-to-end encryption for your SSL
- Full OWASP Top Ten and DDoS protection
- Prevents zero-day exploits

ACHIEVE PCI

- Automated report submissions
- Unlimited network-wide scans
- Less false positives

Web Complete Plan Features

	COMPLETE
WEB DETECT	
Number of Web Pages	500 pages
Malware Scans	Once Daily
Comprehensive Threat Analysis	Ø
Vulnerability Detection	Ø
Blacklist Monitoring	②
Chat. Email, & Phone Support	Ø
WEB PATCH
